

# produce smarter perform better

Better baking results, lower costs and smarter production. That is what we at Kaak Group can help you with. We are a partner for industrial and traditional bakeries. For over a hundred years, we have been helping bakers perform better by providing more than just production equipment.

**iBakeCare**  
YOU BAKE, WE CARE

As the technology advances, Kaak Group continue to work hard to ensure we are at the forefront of making sure the bakery industry is kept up to date. iBakeCare, our innovative smart production solution is doing just that, harnessing the latest technology and putting it in your bakery to give you better baking results, and save you money. Our iBakeCare service and products, help ensure our partners benefit from high quality, profitable production and the latest technical advancements in the bakery industry.

# iBakeCare features, advantages and benefits

## Personalize your dashboard

- Access your production data anytime, anywhere, on any connected device
- Optimise line changes using real time line performance data

## Store historical production information

- Analyse production information to identify your 'golden batch'
- Utilise 'golden batch' production information to develop more consistent production quality in line with ideal standard

## Detect anomalies & create notification alerts

- Set your system to notify you of any current or upcoming production issues
- React faster to production issues thus minimising any downtime

## Monitor your line remotely

- Benefit from having our team share our expertise with you regarding your line and its production
- Minimise your machine's downtime

## Condition based maintenance

- Schedule machine maintenance for an opportune time
- Ensure your machines, parts and materials are used in the most cost effective manner

## iBakeWare

Our KaakID scanner can be provided as a part of the iBakeCare package to track and manage wear and tear of the coating of your product carrier.
