

## Benier Sheeting Line for Tin Bread

This DrieM line is a dough sheeting line able to produce a wide range of tin bread and toast products at a high capacity.

### Products made with the DrieM line for tin bread/toast

#### Tin Bread

In recent years several DrieM reference lines have been developed. These lines can each create a specific range of products.

Also take a look at our lines for cut products, cut & moulded products and flat bread & pizza.

Contact us if you want to receive more information about the DrieM dough sheeting lines.
