

MCS Swing Tray Proofer

MCS manufactures different kind of proofers:

- Swing tray proofers, for products on pans/trays/peelboards
- Stabilised tray proofers, for free-standing products
- Cradle/basket/swing-cup proofers, for batons, rye bread and pizza dough pieces

The design

- Complete stainless steel construction and top-quality components
- Heavy duty sturdy construction
- Easy access for periodical maintenance and cleaning
- Automatic chain pneumatic tensioning systems
- Systems are fully assembled and tested in the factory prior to delivery
- Hygienic design

The technology

- Software programmes for recipe management (proofing time, interfaces with other equipment, climatic conditions, alarms management, trends, product tracking, etc.)
- Exclusive climate installation allows you to keep very accurate climatic conditions throughout the proofer, with ample adjustment possibilities, to maximise product consistency
- Selection of the most suitable proofer design and introduction of bespoke solutions to meet the customer's specific requirements
- Several different loading and unloading systems to suit the different products and types of lines
